11. [redacted] Dropped off the following: with Charles Snodgrass, House Defense Appropriations Subcommittee staff, the suggested language we had prepared in response to his request for open appropriations language; at Representative George Mahon's office, the Director's letter taking a strong stand against an open budget; at Representative John Conyer's office, a letter from the Director regarding operation CHAOS.

12. [redacted] After [redacted] checked with General Walters and [redacted] I called Mark Kolner, on the House Republican Research Committee staff, on his inquiry concerning the General's visit to [redacted]. I said the General had made an "official fact finding trip," and that he had made no written report of his findings but had reported orally. I said if he had any questions about the details of the trip he should have his chairman write to the General who I thought would be responsive to such a request. Mr. Kolner asked whether the trip was a "state visit" and I repeated it "was an official fact finding trip." He asked who had sent the General and to whom the General reported upon his return, and I repeated that I thought the best way to get at these details would be to have his chairman write the General. Kilner said he would "get it into that channel."

13. [redacted] Accompanied the Director to a briefing of the Subcommittee on Government Information and Individual Rights, House Government Operations Committee, on the Privacy Act. See Memo for Record.

14. [redacted] Accompanied the Director to a session with several House members on [redacted] See Memo for Record.
